WE Bridge occupies Southgate House in the new central business district of the Cardiff Enterprise Zone. Our executive facilities offer the highest standards with plenty of classrooms and office space.

## // WE Study

As a centre of academic excellence we offer our students the opportunity to undertake study in higher education in the UK, Australia and USA via our popular foundation programme, which comes with 4 separate pathways: Computing, Engineering, Business and Science.

### // International Foundation Programme

The International Foundation Programme (IFP) has been specifically developed for international students who want to study for an undergraduate degree.

### // General English

Our General English classes provide a professional and relaxed learning environment where students are helped to develop the four essential skills of language communication: speaking, listening, reading and writing.

### // General English and IELTS Preparation

As well as improving their general language capability, students learn and practise key skills and exam techniques required for the IELTS exam.

### // General English and English for Specific Purposes (ESP)

Each English for Specific Purposes (ESP) course focuses on career-specific vocabulary and contexts, and is combined with a General English programme in order to develop your overall English language skills in speaking, listening, reading and writing.

### // Trinity CertTESOL

Our Trinity Certificate in Teaching English to Speakers of Other Languages (CertTESOL) course provides an internationally-recognised teaching qualification in just four weeks.
